

FIREBUG NOW TRIES TO WRECK BLISS HOUSE

Building Which Dynamiters Plotted to Destroy Set Ablaze.

The big factory building owned by E.W. Bliss, extending from No. 338 to No. 356 East Twenty-third street, which has been attacked by men who have sought to blow it up with dynamite, following strikes, caught fire early today, and before the firemen had the blaze under control \$30,000 had gone up in smoke.

The Bliss Building is a series of connecting houses, all six stories. On Saturday last there was a fire which damaged Nos. 332 and 334. At that time Empire Company, No. 16, of which Capt. Walsh, who recently lost his life in a downtown fire, had been chief, stepped in front of the Walsh home, No. 339 West Twenty-third street. Capt. Walsh was hardly laid in his grave then, and the appearance of his old company in front of his home had a bad effect upon his widow and children.

The engine again drew up in front of the house to-day, and again Mrs. Walsh saw her husband's companions risking their lives just as her husband had done. The sight again made her hysterical.

Since the strike of the ironworkers against the Bliss buildings, the big one in East Twenty-third street has been constantly under police guard. In January last an attempt was made to blow up with dynamite a derrick in one corner of the building. Then followed the arrest of the three men who were accused of planning to wreck the building with dynamite.

Belleire Fire Incendiary.

The firemen are confident that to-day's fire was of incendiary origin. Peter Hans, a night watchman, was on the fifth floor about 4 o'clock this morning. There was no sign of fire at that time. Hardly had he made his rounds when fire burst from every part of the fifth floor.

A first, a second and then a third alarm of fire were sounded. The last alarm brought Chief Croker. Because of the Second avenue elevated structure, which runs through Twenty-third street in front of the building it was impossible to use the water tower, and the firemen had to fight the fire from the elevated station.

The fire patrol spread more than 300 oilcloths over the floors below the fire to save the contents of the building from loss by water. This action saved a loss which would have runted up several times the loss by fire.

The police and the Marshal have begun an investigation of the fire on the theory that it was of incendiary origin.

PHILIPPINE ACTIVITY.

Gen. Wood keeps his men busy at drill manœuvres all the time.

MANILA, April 12.—Major-Gen. Wood since assuming command of the troops in the Philippines had had the troops constantly engaged in manœuvres and practice marching. The officers and men have complained that they are worked excessively in this severe climate.

Gen. Wood has since directed that company drill be discontinued and instead at present battalions, regiments and brigades drill cover miles of territory, officers and men carrying heavy field equipment.

To Head off Yellow Fever.

NEW ORLEANS, April 12.—Orders have been issued by the State Board of Health that every house in the entire State of Louisiana in which there was a case of yellow fever last summer must be thoroughly fumigated within the next ten days. Experienced men have been sent to every parish, particularly where the fever was worst last year to see that the fumigation is thoroughly done. This is purely a precautionary measure, but fear has caused the authorities that some of the stomachic medicines, which combat the germs of yellow fever, might have lived through the winter and cause infection this spring.
